Design: Andreas Winkler

PICTOGRAMS

Stainless steel, vertically matt brushed, lasered and finely machined. Self-adhesive, strong adhesion (Pure acrylate), material thickness 2 mm, dimensions in H x W. Design: Andreas Winkler / Thorsten Wohner

P0101 – 110 x 95 mm

P0201 – 110 x 119 mm

P0301 – 110 x 30 mm

P0401 – 110 x 55 mm

P0501 – 110 x 70 mm

P0601 – 110 x 70 mm

P0701 – 95 x 93 mm

P0801 – 95 x 108 mm

P0901 – 95 x 30 mm

P1001 – 95 x 51 mm

P1101 – 80 x 80 mm

P2501 – 103 x 103 mm

P2601 – 118 x 80 mm

P2701 – 105 x 134 mm

Available in custom sizes

Appropriate captions like H, D, WC, see p. 13

With regard to theft protection in public areas, we recommend attachment using hot glue or silicone.

Brushed on one side.

PICTOGRAMS

Stainless steel, vertically matt brushed, lasered and finely machined. Self-adhesive, strongly adhesive (pure acrylate), material thickness 2 mm, dimensions in H x W. Design: Andreas Winkler / Thorsten Wohner

P2001 – 150 x 35 mm

P2101 – 150 x 55 mm

P2201 – 55 x 50 mm

P1301 – 110 x 65 mm

P1401 – 110 x 69 mm

P1901 – 44 x 90 mm

P1701 – 95 x 60 mm

P1801 – 95 x 75 mm

P2301 – 135 x 45 mm

P2401 – 135 x 55 mm

P2901 – 125 x 125 mm

P3001 – 67 x 100 mm

P3701 – 92 x 85 mm

P3201 – 79 x 117 mm

P3101 – 79 x 117 mm

Ideal for combining with other pictograms

P4101 – 112 x 91 mm

P3801 – 110 x 96 mm

P3301 – 94 x 130 mm

P3401 – 84 x 150 mm

P3501
110 x 30 mm
Ideal for combination with other pictograms.

P3501 rotated
110 x 30 mm

Also available as:

PPF25 – Arrow 25 x 9 mm
PPF40 – Arrow 40 x 14 mm
PPF70 – Arrow70 x 25 mm

PICTOGRAMS EXAMPLE COMBINATIONS

Available in custom sizes.

Suitable captions like H, D, WC, see p. 13

With regard to theft protection in public areas, we recommend attachment using hot glue or silicone.
oder Silikon
Brushed on one side.

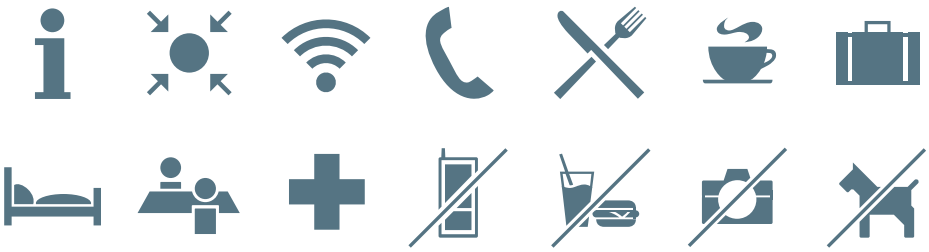
PICTOGRAMS | INDIVIDUAL PRODUCTION

PHOS pictograms have received three international design awards. We offer a complete pictogram series with clear and unambiguous statements. On request, we design and manufacture individual symbols as well as individual dimensions and material thicknesses. All pictograms are processed by hand. Stainless steel, vertically matt brushed, lasered and finely machined.Self-adhesive, strongly adhesive (pure acrylate).

Regarding theft protection in public areas we recommend fixing with hot glue or silicone.

Brushed on one side.

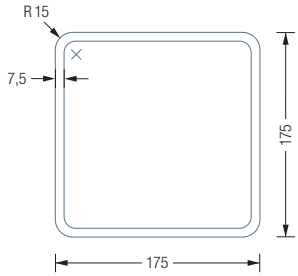
Classic pictograms of the public area:



Individual pictograms - design and production according to template or draft:

PICTOGRAMS | SOFT EDGE FRAME

EXTENSION ARTICLE FOR PICTOGRAMS

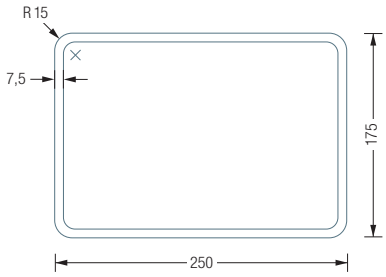


PR175X175

Square frame for pictograms in soft-edge design with rounded corners. Height x Width: 175 x 175mm. Stainless steel, vertically matt brushed, lasered and finely machined. Self-adhesive, strongly adhesive (pure acrylate), material thickness 2 mm.

Also available as:

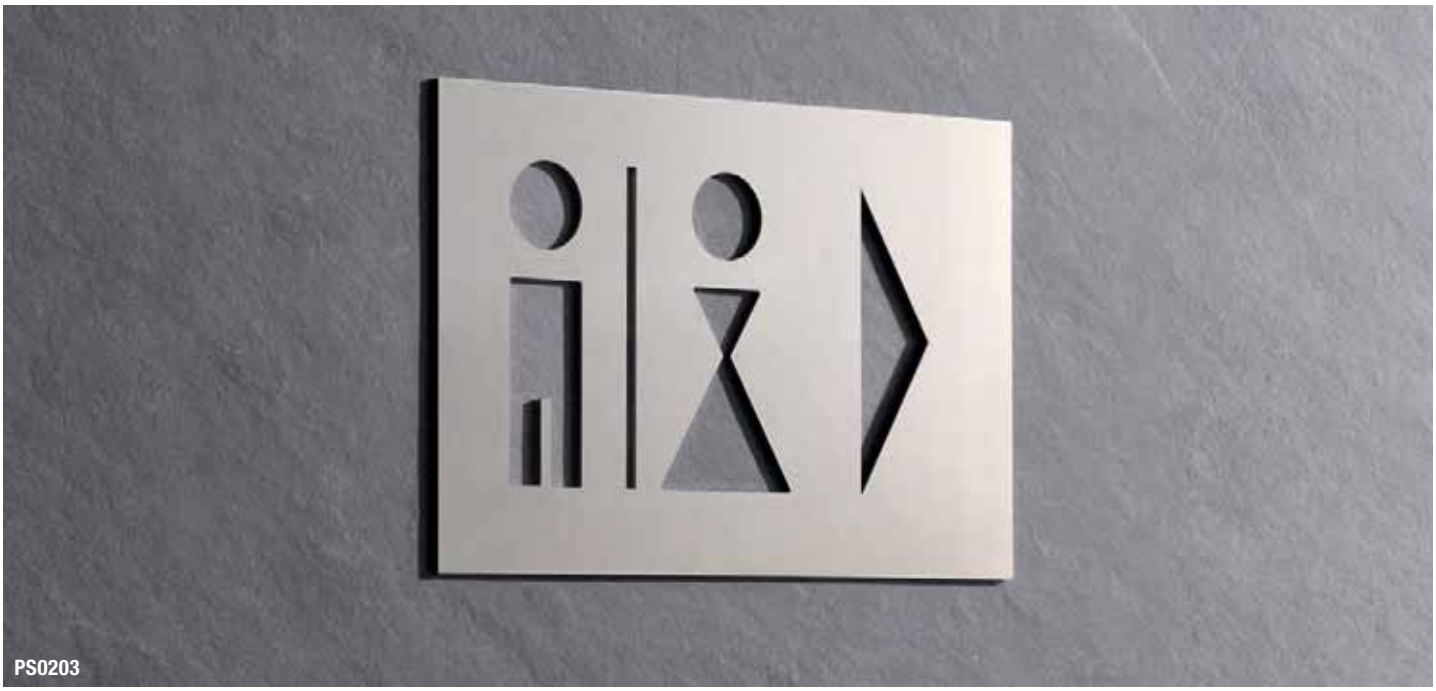
PR175X250 – rectangular frame with soft edge design, height x width: 175 x 250 mm.



The frames are universal additional elements and can be used in combination with all pictograms.

With regard to theft protection in public areas, we recommend attachment using hot glue or silicone.

Brushed on one side.



PS0203

PICTOGRAM SIGNS

Stainless steel, vertically matt brushed, lasered and finely machined. Self-adhesive, strongly adhesive (pure acrylate), material thickness 2 mm, height x width: 160 x 160 mm. Design: Andreas Winkler / Thorsten Wohner. For optional mounting options and background film, see p. 18.

Custom sizes available.

Matching signs with WC lettering and directional arrows see p. 10

With regard to theft protection in public areas, we recommend attachment using hot glue or silicone.

PICTOGRAM SIGNS | INDIVIDUAL PRODUCTION

In addition to our pictograms, our pictogram signs are among our most successful elements. On request, we design and manufacture individual symbols as well as individual dimensions and material thicknesses. Stainless steel, vertically matt brushed, lasered and finely machined. Self-adhesive, strongly adhesive (pure acrylate). Material thickness 2 mm.

As an option, we offer several attachment variants for our pictogram signs. It can be mounted "floating" on the wall with a wall attachment, or with spacers as a "flag" perpendicular to the wall or down from the ceiling - see p. 17. Both sides of all free-hanging signs are sanded to the same surface quality .

Classic pictogram signs of the public area:

With regard to theft protection in public areas, we recommend attachment using hot glue or silicone.

Individual pictogram signs - design and production according to template or draft:

BS0104 | FLAG ASSEMBLY **BFFDM**

Custom sizes available.

Use of individual fonts according to specifications.

With regard to theft protection in public areas, we recommend attachment using hot glue or silicone.

Brushed on one side.

CAPTION | SIGNS

Stainless steel, vertically matt brushed, lasered and finely machined. Self-adhesive, strongly adhesive (pure acrylate), material thickness 2 mm, font: Helvetica Neue LT Medium. Size in H x W.
For optional mounting options and background film, see p. 18.

HNS160X235 WITHOUT LETTERING | WALL SPACER **BFVER**

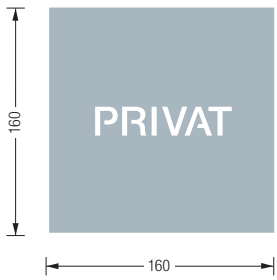
Custom sizes available.

Use of individual fonts according to specifications.

With regard to theft protection in public areas, we recommend attachment using hot glue or silicone.

Brushed on one side.

LABELS
CUSTOM SIGNS

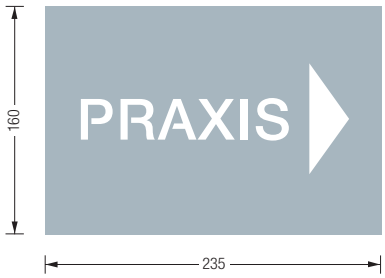


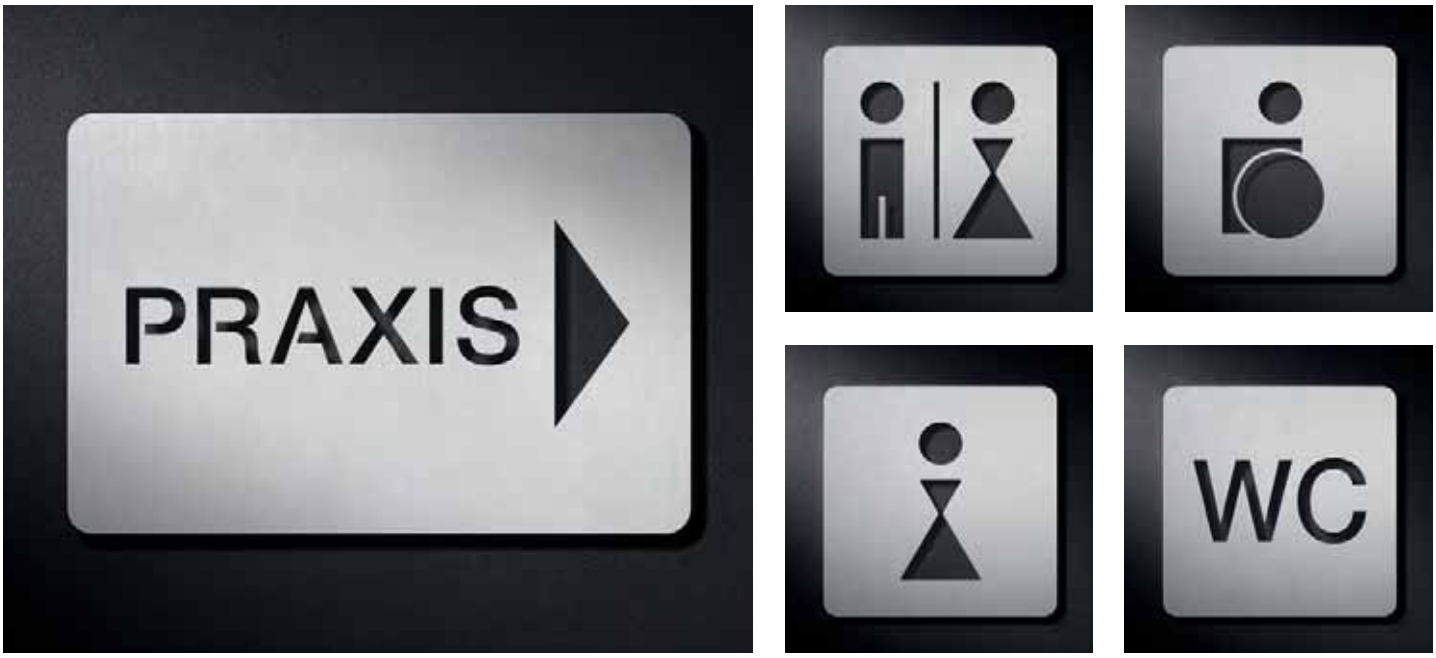
HWS160X160

Lettering plate with individual lettering. Solid stainless steel, vertically matt brushed, lasered and finely machined. Self-adhesive, strongly adhesive (pure acrylate). Plate with a material thickness of 2 mm with custom lettering. Height x Width: 160 x 160mm. For optional mounting options and background film, see p. 18.

Also available as:

HWS160X235 – Height x Width: 160 x 235 mm.





Optional version, please specify when ordering.

For optional mounting options and background foil, see p. 18

Custom sizes available.

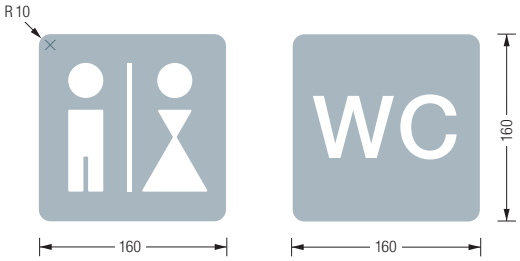
With regard to theft protection in public areas, we recommend attachment using hot glue or silicone.

Brushed on one side.

SIGNS | SOFT EDGE DESIGN

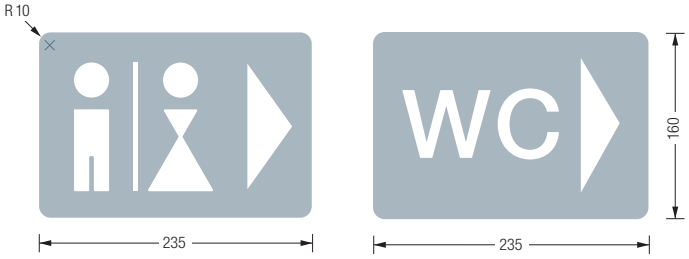
APSED160X160

Optional version (surcharge item): Pictogram sign or information sign in a square soft-edge design with rounded corners. Height x Width: 160 x 160mm. Stainless steel, vertically matt brushed, lasered and finely machined.
Self-adhesive, strongly adhesive (pure acrylate), material thickness 2 mm



Also available as:

APSED160X235 – in rectangular soft-edge design, height x width: 160 x 235 mm.



Custom sizes available.

Font Helvetica Neue Medium – Use of individual fonts according to specifications.

With regard to theft protection in public areas, we recommend attachment using hot glue or silicone.

Brushed on one side.

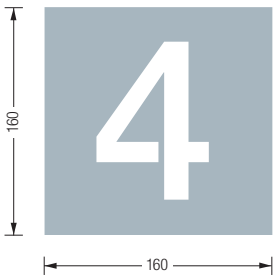
HOUSE NUMBERS | SIGNS



HNS160X160

House number sign, height x width: 160 x 160 mm. Solid stainless steel, vertically matt brushed, lasered and finely machined. Self-adhesive, strong adhesion (pure acrylate). Sign in material thickness 2 mm with customized lettering. For optional mounting options and background film, see p. 18.

Also available as:

HNS160X235 – Height x Width: 160 x 235 mm.

Including mounting material

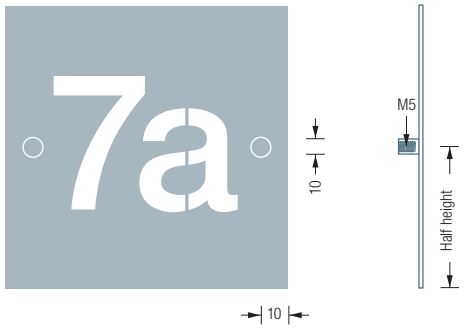
Signs and inscriptions are equipped according to the desired fastening variant.

MOUNTING VARIANTS
SIGNS AND LABELS

BFSS

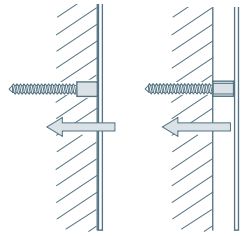
Wall mounting set consisting of two strikers and M5 threaded sleeves attached to the rear. For direct mounting of signs and free-standing signs. Including, optionally usable wall spacers*, Ø12 mm, length 12 mm. Solid stainless steel, hand-polished.

Installation example house number plate:



Installation to surface:

Installation with spacer:



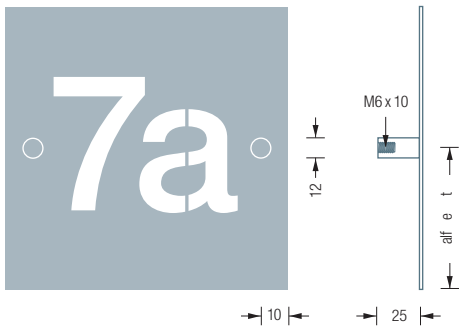
BFSS INSTALLATION TO SURFACE | **HN140**

BFSS MOUNTED WITH SPACER | **HN140**

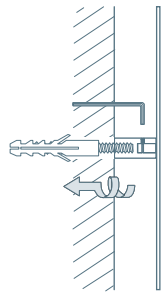
BFVER

Bracket set consisting of two wall mounts Ø 12 mm, length 25 mm. For concealed mounting of signs and free-standing signs via M6 thread. Rear screw connection possible. Cap height of 10 cm required for letters and numbers. Solid stainless steel, hand-polished.

Installation example house number plate:



Wall mounting:



BFVER SCREWED WITH WALL SPACING | **HN140**

* Material: PE (polyethylene), matt black.
High chemical resistance, good sliding properties.

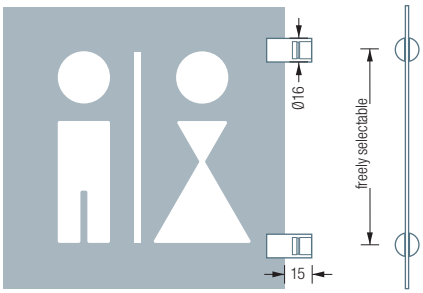
MOUNTING VARIANTS
SIGNS AND INSCRIPTION

BFFDM – FLAG / CEILING MOUNTED

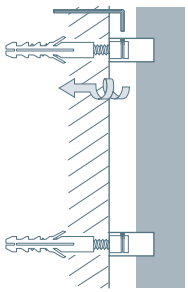
Sign holder set consisting of two spacers. Installation by clamping the pictogram/label. Solid stainless steel, hand-polished.

Including Mounting Material

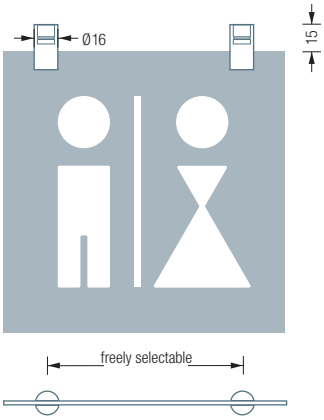
Flag installation example WC sign:



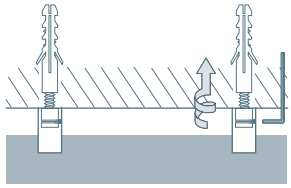
Flag mounting:



Ceiling mounting example toilet sign:



Ceiling mounting:



APPBS

Optional variant of pictogram / lettering signs made of stainless steel matt brushed on both sides. Recommended when attaching the signs for two-sided visibility.

KFS

Background plastic film, matt black, to be glued on the back on pictogram / label plates. Weatherproof and colourfast. Already attached at the factory.
