

WG55S Hook Rail

The WG55S hook rail is the solution to avoiding getting 'hooked' by a corridor coat rail. Designed to safeguard pedestrians walking past as the hooks are recessed behind the protective carrier profile.

GUV-tested safety coat rack with GS mark for use in schools and sports facilities.

Designed for high loads, built to last. Available in a silver anodised finish.

Hook Options:

- Alternating 3-fold and 2-fold the hook
- 3-fold hook
- 2-fold hook
- Profile hook
