MULTI-LEVEL COAT & BAG RAILS

FS704L

Multi-level coat & bag hanging rail with removable mid rails to enable flexibility of use. Rails can either be stowed to allow clear access to the rear rails when loading or to make room for additional bag storage, accommodating seasonal or event requirements. Rail elements are made from recycled aluminium in a silver anodised finish as standard, with powder coated frames.

The multi-level coat & bag rail is designed for flexibility of use to enable the capacity of coats or bags to change, maximising the space and efficiency in a busy cloakroom.

Aluminium profiles come in a silver anodised finish as standard. Alternative anodised finishes and RAL colours are available:

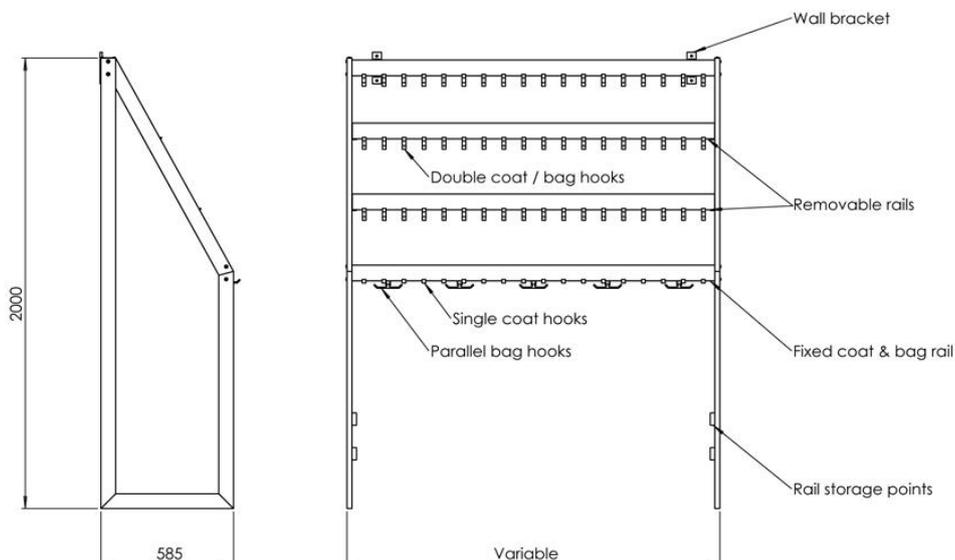

Aluminium rails:
Silver Anodised
C0

Frame colour:
Silver Powder Coated
RAL9006

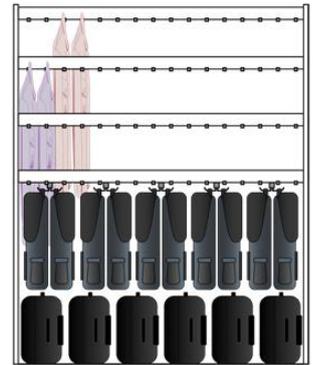

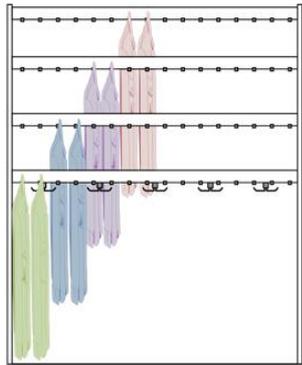

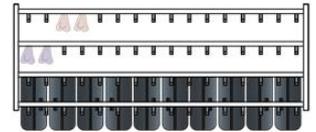

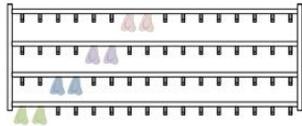

FS704L Dimensions
